PROFILE

Software Engineering student nearing graduation, passionate about building efficient and user-friendly software solutions. Proactive, communicative, and team-oriented, with a solid foundation in full-stack development and experience in both hardware and software environments. Constantly seeking new challenges and opportunities for growth in the tech field.

TECHNICAL SKILLS

- Programming Languages & Frameworks:
    - Proficient in: C#, Typescript, JavaScript, HTML5, CSS, PHP
    - Frameworks & Libraries: React, .NET, Bootstrap,Tailwind
    - Database Management: SQL Server (SSMS), MySQL
    - Reporting Tools: Crystal Reports
    - Experience with Postman for API testing.
- Software Development Skills:
    - Experience in front-end and back-end development, CRUD operations, and API integration.
    - Familiar with UI/UX design principles and proficient in using Figma to create wireframes, prototypes, and responsive interfaces for web and mobile applications
    - Code versioning and collaboration via Git/GitHub
-Networking & Cybersecurity Fundamentals:
    - Basic knowledge of Cisco networking concepts, IP addressing and network configurations
    - Understanding of network protocols, authentication concepts and access control fundamentals
- System Skills:
    - Strong experience in Windows environments, basic use of Linux via VMware
- Automation & Integration:
    - Automation building with n8n for workflows, notifications and business process optimization
    - Automation of WhatsApp, Messenger and Instagram messaging using AI-assisted flows
    - Data extraction, transformation and automation for operational tasks
- Artificial Intelligence & Prompt Engineering:
    - Practical experience using LLMs (ChatGPT, Claude, Perplexity, Gemini) to accelerate development, automate tasks, and improve productivity
    - Skilled in prompt engineering to obtain structured responses, optimize decision-making, and generate usable technical outputs
-Low-Code Tools & Productivity:
    - Proficient using Figma for UI/UX flows, prototyping, mockups, design documentation
- Other Tools:
    - Photoshop for interface design.
    - Office 365 for documentation and collaboration
- Languages:

- Spanish: Native
- English: C1 Fluent

EXPERIENCE

Technical Support Specialist (Freelance)
Self-employed | July 2024 – February 2025

- Provided hardware and software technical support to small businesses and individual clients
- Diagnosed and resolved technical issues across Windows-based systems
- Assisted with network configuration, OS installation, and security setup
- Offered guidance on system upgrades and preventive maintenance
- Contributed to maintaining reliable IT environments for local businesses

Loan Specialist
Service First (Client: Reprise Financial) | March 2025 – September 2025

- Developed strong multitasking capabilities by managing multiple client interactions, financial validations, and system operations simultaneously in a fast-paced environment.
- Strengthened English communication skills, progressing from B2 to C1 in one month through continuous interaction with U.S-based clients, demonstrating fast learning abilities and adaptability.
- Promoted loan products and performed effective upselling, consistently achieving sales goals while ensuring personalized guidance for each customer.
- Provided professional customer service and empathetic financial assistance, maintaining high satisfaction levels and building trust with clients during the loan application process.
- Worked with CRM platforms, financial software and internal systems to manage applications, verifications, and documentation efficiently.

EDUCATION

Bachelor's Degree in Software Engineering
Universidad Internacional de las Américas
2022 - Ongoing

Certifications:
Scrum Fundamentals Certification
SCRUMstudy
2023

Interaction with JavaScript
Instituto Nacional de Aprendizaje
2023

SOFT SKILLS

- Assertive Communication
- Teamwork
- Social skills
- Patience
- Mental Resilience
- Quick Learning
- Adaptability
- Proactivity
- Enthusiasm
- Organization

EXTRACURRICULAR ACTIVITIES

Community volunteer work involves activities with underprivileged children and youth from 2017 to 2022.

I allocate a portion of my time to self-directed development in web and mobile app design.
